

Kabelmanagement staaf met 5 cm offset voor racks - horizontaal - 10 stuks

Product ID: CMLB102

These lacing bars install horizontally on the front or back of your rack to provide a secure mounting point for you to run cables. You can attach your cables to the lacing bars using cable ties to reduce the tension on your cables and prevent damage to the ports on your rack-mount equipment. The lacing bars feature a 2 in. offset for hassle-free cable access.

Protect your equipment

Cable lacing bars protect your equipment by offloading the weight of the cables in your rack, which reduces the constant strain that can be put on the ports of your rack equipment. The lacing bars also provide a route for cables, which enhances passive cooling within your rack. This helps to ensure your rack remains at an optimal temperature, to extend the life of your equipment and minimize or eliminate downtime.

Discreet and sturdy design

These cable lacing bars are constructed of solid steel and occupy just one-third of a rack U at each install point. The lacing bars are engineered to run horizontally and feature a 2 in. offset at 75 degrees, which enables you to easily run cables from the back of your equipment. The round solid-steel design ensures a high weight capacity, unlike flat lacing bars that can bend easily.

Save on shipping costs

This package includes 10 cable lacing bars, enabling you to buy multiple bars packaged together. This is ideal for large-scale implementations, because it significantly reduces the packaging, and in turn, shipping costs.

The CMLB102 is backed by a 2-year StarTech.com warranty and free lifetime technical support.

en compatibiliteit**

Toepassingen

- Vang het gewicht van kabelbundels op vanaf de poorten van de apparatuur in uw rack
- Geleid kabels in uw rack voor organisatie en passieve koeling

Eigenschappen

- Verminder de kabelbelasting van de poorten van uw rackgemonteerde apparatuur, en bescherm uw apparatuur zo tegen beschadiging
- 10 kabelmanagementstaven om de verzendkosten te verlagen
- 5 cm speling om kabels gemakkelijk vanaf de achterkant van uw apparatuur te geleiden
- EIA/ECA-310-E conform
- Gemaakt van massief staal met een rond design voor maximale gewichtsbelasting

Fysieke eigenschappen	Warranty	2 Years
	Breedte product	7 mm [0.3 in]
	Gewicht product	130 g [4.6 oz]
	Hoogte product	11 mm [0.4 in]
	Lengte product	483 mm [19 in]
Verpakkingsinformatie	Verzendgewicht (verpakt)	1702 g [60.1 oz]
Wat wordt er meegeleverd	Meegeleverd	10 - kabelmanagement staven
		20 - M5 schroeven
		20 - M5 kooimoeren
	Industriestandaarden	EIA/ECA-310-E
	Stand	Horizontaal
	Type frame	Staal
	U-hoogte	1U
