

17" HD Rackmount KVM Console - Dual Rail

Product ID: RKCOND17HD

Providing centralized control of your single PC or dozens of servers, this dual rail rackmount KVM console also gives you easy access to and visibility of your system while it's mounted in a server rack or cabinet.

Dual Rail Design

The dual rail KVM console design maximizes space in your datacenter's rack cabinets by allowing the LCD monitor and the keyboard/mouse to move separately from each other. You can tuck the keyboard away while the display stays active, allowing you to conveniently monitor your computer through closed glass or mesh rack cabinet doors.

High Definition LCD Monitor

The 1080p KVM console is 17.3" and LED back-lit, for low power consumption. It supports high definition resolutions up to 1920x1080 providing sharper video performance.

Digital & Analog Support

Whether you are running a multi-port KVM with an analog display or a single port KVM with a high definition display, this DVI/ VGA KVM console can support both signals.

Simple Setup

This KVM console comes with everything you need to set up:

- ✓ 1 Audio Cable
- ✓ 1 Set of KVM Cables (USB/VGA)
- ✓ 2 Rear Mounting Brackets
- ✓ M5 Cage Nuts and Screws

Once your KVM console is mounted to your rack, you can use the USB port on the front to easily connect any USB compatible peripheral such as a fingerprint scanner or mousethumb drive.

StarTech.com offers a wide selection of KVM consoles to help you access your systems more efficiently without the expense and clutter of extra peripherals. This dual rail KVM console is backed by a 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Large server farms
- Co-location facilities

Features

- Slide the rackmount monitor and keyboard/mouse independently with dual-rail KVM console design
- 1080p KVM console supports high-definition resolutions up to 1920x1080
- Supports both digital and analog connections with DVI and VGA ports
- Set up easily with included brackets, cables and screws
- Connect a fingerprint scanner or other peripheral to the USB port on front of KVM console
