

Height-Adjustable Display Cart 75kg

VFM-F25 EU SAP: 4818528 US SAP: 13445519

visionaudiovisual.com/vfm-f25

Portable floorstand for displays up to 75 kg (165 lb)

Fits displays with VESA sizes up to 1000 x 600 mm

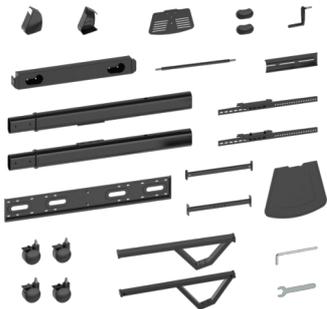

For 60-100" Displays

Height adjustable by crank hand

Large 4" wheels

Shelves included

Vision's Flat-Panel Mount (VFM) Carts are constructed from commercial-grade heavy-duty steel. They are easy for one person to move, and feature a hand crank to adjust height once the display is in position. These attractive floorstands are perfect for AV rental, event centers, healthcare, schools, or any application where large format displays are shared between meeting areas.

SWL 75 kg (165 lb)

The robust steel frame supports displays weighing up to 75 kilograms.

Thumbscrews

The screws included to fix the display are thumbscrews for fast tool-free assembly. Vision include more screw sizes than other manufacturers to ensure you get that display on the wall as quickly as possible every time.

60-100" Displays

The recommended size range is also influence by the weight of the display and the mounting hole dimensions. Any display weighing less than 75 kg and with a VESA pattern of up to 1000 x 600 mm can fit this display.

Massive Wheels

Quality 4" (100 mm) castors glide over any bumps, making the cart easy to pull even on deep carpet. Big wheels also reduce vibration of your expensive AV equipment.

Adjustable Height

Crank the handle at the back of the column to adjust the display height by 300 mm (12"). Gearing makes it easy to turn.

Tilt

15° of tilt adjustment to avoid reflection from overhead lights.

Shelves Included

Two shelves come with the cart; one for a video conference camera above the display, and another below the display for laptops etc. Both are height adjustable.
